CHARTERED ACCOUNTANT PRACTICE OPERATING SYSTEM

CA Firm Automation Suite

Complete Feature Specifications, Practice Operations Manual & Sales Guide

TARGET AUDIENCE	DATABASE ENGINE	AI INTELLIGENCE	AUTOMATION LAYER
Indian CA Firms (1–15 Partners)	Google Sheets API v4 (Live Sync)	Groq LLaMA 3.1 8B Instant	Daily Cron Schedulers & Webhooks

1. Executive Summary: Why Indian CAs Need This

Most Chartered Accountants in India waste **over 60% of their billable hours** on non-billable administrative friction:

- Chasing reluctant clients over phone and WhatsApp for bank statements, GST invoices, and Form 16/26AS.
- Tracking dozens of statutory deadlines across GST, TDS, Advance Tax, and ROC on scattered Excel files.
- Answering repetitive, routine tax questions late at night when the partner wants to rest.
- Losing cash flow because audit and filing fee reminders are awkward to send manually.

> **The Transformation: Digital Practice Operating System**
>
> This software centralizes all client records into a familiar Google Sheets cloud database, deploys an AI client support desk, automates morning WhatsApp reminders on statutory schedules, and tracks every rupee of billing recovery with zero manual effort.

2. Master Feature Breakdown (All 8 Modules)

Module 1: Practice Command Dashboard ("Sharma & Associates")

Command Center

What It Is: The primary home screen giving the Senior Partner an instant bird's-eye view of firm performance in under 10 seconds.

- **Row 1 KPI Cards:** 4 real-time metric cards (Active Clients: 10, Pending Documents: 3, Compliances Due: 3, Overdue Fees: ₹42,500).
- **Row 2 Visual Analytics:** Smooth revenue trajectory spline wave + 38% Compliance Radial Completion Gauge + Partner profile badge.
- **Row 3 Operational Feed:** Smart Document Deck with 1-click Approve/Reject buttons, categorized Firm Data Vault, and live Activity Ticker.

Daily Usage: Partners review this during morning standup (9:30 AM) to allocate staff and spot overdue filing bottlenecks.

Module 2: 24/7 AI Client Support Desk

Groq LLaMA 3.1 AI

What It Is: An intelligent client advisory desk trained on Indian taxation (Income Tax, GST, MCA, and TDS) with automatic offline regulatory fallback.

- **Instant Knowledge:** Answers Section 80C deductions, GST filing due dates, Advance Tax 234B/C interest, 44ADA presumptive limits, etc.
- **Multi-Channel Ready:** Plugs into chat UI or WhatsApp Cloud API webhook for direct smartphone auto-replies.
- **Burnout Prevention:** Clients receive instant, polite, technically accurate answers at 11 PM without waking up the CA.

Daily Usage: Clients get round-the-clock advisory; junior articles use it as an in-house tax reference library before drafting notes.

Module 3: Smart Document Collection & Vault

Workflow Automation

What It Is: Centralized hub to track client tax records from request to verification directly synced with Google Sheets.

- **4-Stage Lifecycle:** Tracks status as `Pending` → `Received` → `Verified` → `Rejected`.
- **1-Click WhatsApp Reminders:** Generates tailored WhatsApp messages listing the exact missing documents for each client.
- **Categorized Vault:** Organizes files into GST Invoices, Bank Statements, Audit Proofs, and Direct Tax Challans.

Daily Usage: Articles filter for "Pending" on the 10th of the month and dispatch mass document reminders in one click.

Module 4: Statutory Compliance Calendar & Penalty Engine

Statutory Deadline Control

What It Is: The regulatory clock of the firm. Tracks deadlines across GST, Income Tax, TDS, and ROC with live countdowns and penalty risk tags.

FILING TASK	AUTHORITY	STATUTORY DUE DATE	DEFAULT PENALTY RISK
GSTR-1 Return	GSTN	11th of every month	E-WAY BILL BLOCK
GSTR-3B Tax Summary	GSTN	20th of every month	₹50/DAY + 18% INT
TDS Challan 281	Income Tax	7th of every month	1.5%/MONTH INT
Advance Tax (Q4)	Income Tax	15th March	SEC 234B/C INT
ITR Non-Audit	Income Tax	31st July	₹5,000 SEC 234F
ROC AOC-4 / MGT-7	MCA	30th Oct / 29th Nov	₹100/DAY PER FORM

Daily Usage: At 9:00 AM daily, the background scheduler scans the calendar and alerts clients whose filings are due within 7 days.

Module 5: Client Acquisition & Lead Pipeline

Inbound CRM

What It Is: Captures and qualifies incoming business inquiries from websites, referrals, and WhatsApp campaigns.

- **Pipeline Stages:** `New Inbound` → `Qualified` → `Proposal Sent` → `Won & Converted`.
- **1-Click Client Conversion:** Clicking "Convert" automatically inserts the prospect into the master Google Sheet as a live client.
- **10:00 AM Follow-up Scheduler:** Automatically follows up on unaccepted proposals after 48 hours.

Module 6: Invoices & Automated Fee Recovery Engine

Cash Flow Acceleration

What It Is: Solves the chronic Indian CA problem of uncollected audit and compliance fees.

- **Aging Analysis:** Flags invoices that are 15, 30, or 60+ days overdue.
- **10:30 AM WhatsApp Payment Scheduler:** Sends polite, professional WhatsApp reminders with invoice details and UPI/bank payment instructions.
- **1-Click Settlement:** Marks bill as paid and updates receivables in Google Sheets instantly.

Module 7: Master Client Directory & Onboarding

Database Core

What It Is: Full directory of corporate clients (Pvt Ltd, LLPs, Partnerships, Proprietorships) with PAN, GSTIN, WhatsApp, and assigned articles.

- **Instant Onboarding Modal:** Form directly creates new rows in Google Sheets `Clients` tab without manual spreadsheet editing.

Module 8: Practice System Settings & Scheduler Hub

Administration

What It Is: Control tower showing live connectivity health for WhatsApp API, Google Sheets, Groq AI, and background schedulers.

- **5 Manual Triggers:** Run any morning cron workflow on demand with a single click.

3. Typical Day at a CA Firm Using This Software

🌅 Morning Routine (9:00 AM – 10:30 AM)

- **9:00 AM:** Schedulers scan compliance dates and queue WhatsApp notices.
- **9:30 AM:** Document reminder scheduler runs.
- **10:00 AM:** Lead proposal follow-ups dispatched.
- **10:30 AM:** Fee reminder scheduler alerts overdue accounts.
- **CA Partner:** Reviews the 4 KPI cards and assigns urgent items.

🌇 Afternoon Execution (11:00 AM – 5:00 PM)

- **Articles:** Verify submitted documents and prepare filings on GST/IT portal.
- **Filing Updates:** Articles mark filings as "Filed" with challan numbers.
- **AI Desk:** Handles 20+ routine client questions automatically.
- **Accountant:** Verifies incoming payments and marks invoices settled.

4. Commercial Playbook: How to Pitch & Sell to CAs

The Pitch Script for Chartered Accountants

"Sir, your firm is losing 50+ hours every month just chasing clients for bank statements, GST bills, and unpaid fees. This platform acts as your digital office manager: it links directly to your Google Sheet, tracks every GST, ITR, and ROC deadline, sends automated WhatsApp reminders to clients on time, and gives your clients a 24/7 AI tax desk. You save 50 hours a month, eliminate penalties, and collect your fees twice as fast."

VALUE METRIC	TRADITIONAL CA OFFICE	WITH CA AUTOMATION SUITE
Time Chasing Documents	15–20 hours / week per article	**15 minutes / week** (Automated)
Default Filing Penalties	Frequent client late fee disputes	**Zero defaults** (7-day alert buffer)
Fee Collection Speed	45–90 days overdue average	**14–21 days** (Automated WhatsApp nudges)
Client Inquiries at Night	Partner calls or unread WhatsApps	**Instant AI answers** in 2 seconds
Firm Capacity Limit	~100 clients per 3 partners	**300+ clients** comfortably managed
